Hanging

Lighter weight and better thickness control of our cabinet with fast locks makes hanging more efficiently

±5°, 0°、±2.5°

Curve

Curve cabinet unique design .Testing the product of mosaic technology, Display extraordinary LED effect and visual perception.

PART 3
Product Features

Space Creates Possibility!

3.1·Appearance

Simple Appearance, Delicate and Portable

Simple industrial design, free, noble, solemn, calm and stable, these characteristics gang together, in leading the fashion at the same time display the deep, mysterious, hidden strength side.
Simple and symmetrical shape design highlights the solemn, interpretation the beauty of the PF series.

# Die-casting Aluminum, High Precision, High Strength

Testing by the authoritative testing institutions, die-casting aluminum material cabinets has high strength, tensile test can reached 15.65KN.

Testing by high and low temperature cold and hot cycle test, die-cast aluminum materials is more stable and difficult to deformation than magnesium alloy materials, so that the high precision of the cabinets can be guaranteed.

**The tensile test report**
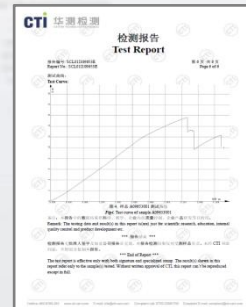

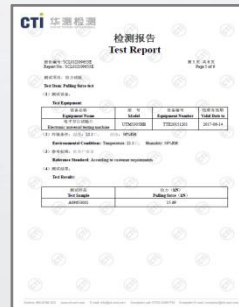

3.2·Performance

High definition images, dynamic animation effects, vivid video playing, support multiple broadcast format, widely application.

Stable Performance, High Definition

3.3 Structure

front service   rear service

Full front and rear serviced

Front maintenance no maintenance path needed
each module is equipped with magnet cylinders,
which connect the module onto the panel structure.

Modules also can be took off from back side

Unified Modules Design Platform

Magnets

Handle

PF series with module size of 250x250mm provides magnet module assembling method for front and rear access.

Various options on pitches(available from P2.6 to P4.8)

One cabinet more pixel pitches choices

One cabinet matches with module
 of different pixel pitches which can
be replaced freely
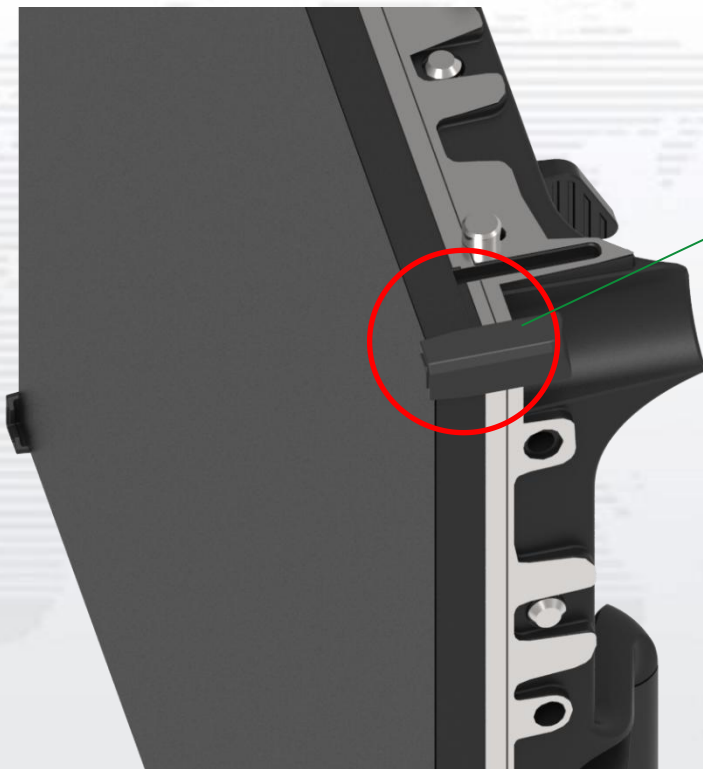

Corner protection

Corner protectors

Corner protectors are designed in four cabinet's corners to protect LEDs and Masks.

Anti-collision Base Design

Anti-collision base are designed at bottom
of cabinet can effectively protect the bottom
led and masks during transportation and installation

Anti-collision Base
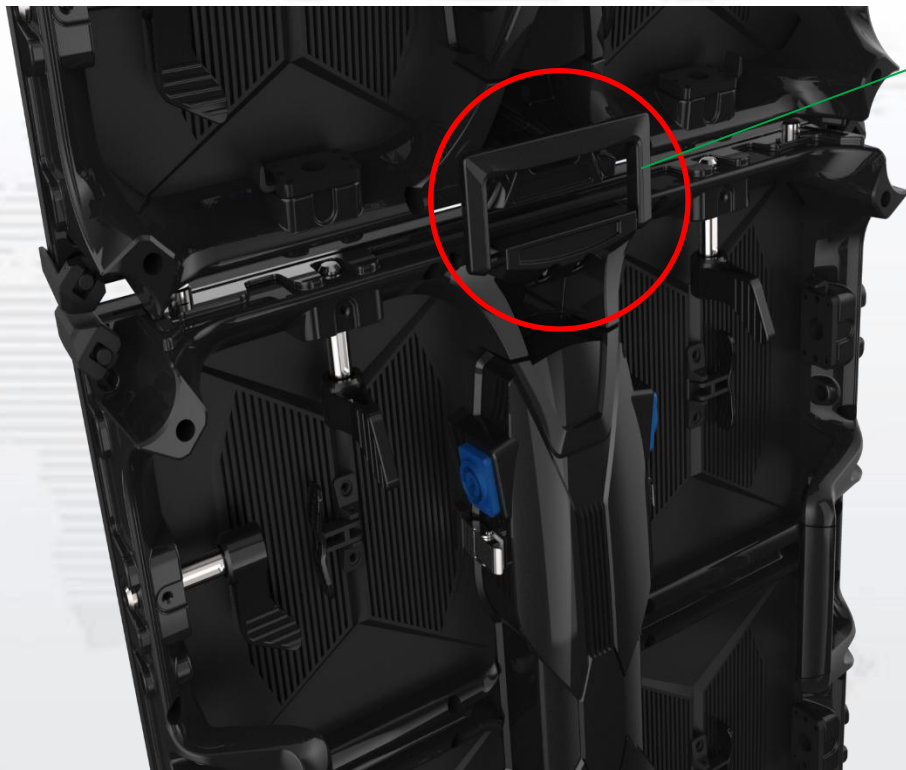

Design

Anti-Down handle

Anti-Down handle and Spring Quick lock make it possible for one man to install the led screen.

up & down

up & down

Spring Quick Lock
Spring Quick lock with high precision for up&down,left&right fast connection

PART 5

Real Products

Space Creates Possibility!

01 -- Led modules' corner protection against bumps.
02 -- Automatic spring locks.
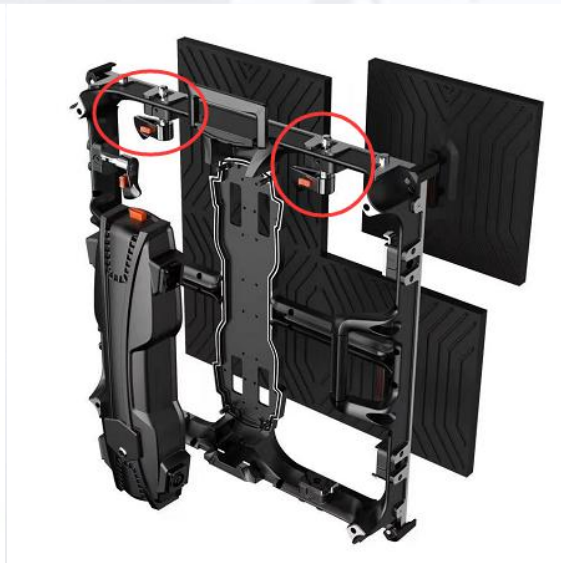

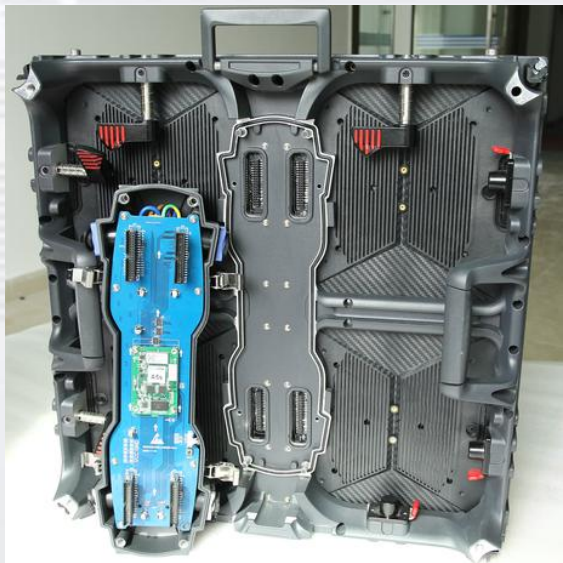

**03 -- Single person can easy to assemble and set up all the cabinets because all the spring handles and spring blocks are automatic, that can save many labor cost.**
As you see I am demonstrating to assemble our private mobile Led rental screen independently.

04 -- Power box integration, hard connection transmission without wires and cables is more stable, trouble clearing is faster, especially to achieve higher waterproof grade.

**05 -- Front and back maintenance.**

Designed by heart and experience!!

06 -- Inner and Outer curved 15 degrees angles.
07 -- The handles, connecting blocks, cables and wires air plugs are automatic to make everything to be simplest.
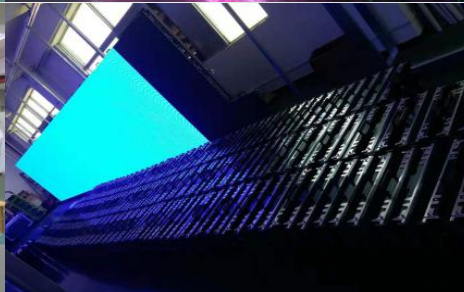

01 -- The handles of the cabinets is automatic, it needs to push to right to turn back.

02 -- The power box without any screws to fix, the fixing points are up and down, the strength should be equal on up and down when you remove it.

Company introduction:

Shenzhen TOPINLED Display Company established in 2017, is a led display manufacturer with about 2200sqm factory including machines, 20 workers with engineering and technical team, integrating production, processing and design.

Our strong technical team comes from well-known domestic companies with more than 13 years of design experience. After years of precipitation, it now has a super strong independent design ability can continuously update and design new products according to the development of the market and the actual needs of customers, so as to improve our competitiveness and help customers expand their markets.

Our production and engineering team has experienced thousands of projects totaling more than 20 million dollars, which means that we have sufficient stability in terms of production quality and delivery. At the same time, our experienced sales team can provide you with timely and efficient, 24-hour online professional services. The salesperson will combine the company's technical and production teams to provide you with professional pre-sale, after-sales and after-sales service according to the actual needs of customer projects.

The CE(Europe) and FCC(America), UL powers and wires

Thank you!
